

Manual micropipettes

The Acura® manual 815, 825, 826XS, 835, 855

- **The micro-, macro-, multichannel, and fixed volume pipette models**
- **Micropipette saver packs**
- **Dilution pipette**
- **Pipette stands**
- **Premium pipette tips**
- **Reagent Reservoirs**
- **Pasteurs, straws and filters**
- **Sterilization pouches**

Manual micropipettes

The Acura® manual models

The Acura® manual micropipettes are combining high-tech materials with exceptional, user-friendly ergonomics. A wide choice of models offers much more than superior performance and makes pipetting safe and comfortable.

- Smart and reliable volume adjustment
- Single-handed volume setting
- Precision digital display visible at all time
- Justip™ adjustable tip ejector fitting most tips
- Swift-set user calibration system
- Shock, UV light and autoclaving resistance

See pipette stands page 18

See pipette tips page 20

Most comfortable pipetting

The Acura® manual fits everybody's hand with or without glove. Ergonomic shape, light weight and soft plunger travel care for better comfort.

Ejector button

Ergonomically positioned, the large surface, soft-padded ejector provides for low-pressure activation.

Smart and reliable volume adjustment

State-of-the-art micrometric setting is performed smoothly and precisely by turning the push button. Finely machined click-stops and free rotating cap prevent any unwanted volume alteration.

Digital display always visible at a glance

Located on the front of the instrument, the display window allows the user to comfortably read the set volumes at any time during pipetting. A comforting reassurance for the user.

Minimum maintenance / sterilization

Easy disassembling for thorough cleaning. Sterilization achieved by autoclaving instrument fully assembled (121°C / 250°F).

Adjustable tip ejection

Ejector shaft height adjustment system called Justip™ allows a wide selection of tips to tightly fit the nozzle.

Instant calibration

Swift-set user calibration system - with integrated key and locking mechanism - makes tedious procedures a thing of the past. Easy and precise, it is in full compliance with international standards and recommendations.

Safety seal

Though easily removed when needed, the switch protection seal is autoclaving resistant.

Calibration seal stickers		Cat. No.
Replacement seals	25 / pk	1.825.025
Replacement seals	100 / pk	1.825.100

Smartie caps colour coding at will

All Acura® manual pipettes have colour-coded button caps for individual, lab or department identifications. Pick among 14 colours or choose the smartie mix for other colour combinations.

Manual micropipettes

The Acura® manual 825

There is a choice between 825 model, the classic one for all applications and 826XS micropipette specially dedicated to research. Both lines bring much more than superior performance and make pipetting safe and comfortable. Three-year warranty.

- Smart and reliable volume adjustment
- Single-handed volume setting
- Precision digital display visible at all time
- Justip™ adjustable tip ejector fitting most tips
- Swift-set user calibration system
- Shock, UV light and autoclaving resistance

Manual micropipettes

Extra sharp XS

The Acura® manual 826XS

Derived from the Acura® manual 825, the 826XS line was designed with the research scientists in mind. Shorter, smoother, lighter in weight, the eight models offer key features aiming at excellence in pipetting. Three-year warranty.

- Excellent ergonomic shape and size ratio
- Springs and tightness seal for extra-smooth activation
- Reduced weight - lighter than leading brands
- Increased driveability with short, narrow shaft
- Conical shaft end for easy reach in smaller microtubes

826XS

extra sharp

- 100 - 1000 µL

Pipetting		Overshoot	
Start	End	Start	End
≤16 N*	≤ 2.8 N*	≤ 9.3 N*	≤ 11.5 N*

Extra smooth activation

Unique tightness lip seal and new springs provide for ultra-soft pipetting, reducing hand fatigue while working. Above forces, measured on a 20 - 200 µL model, are indicative of very limited finger efforts. Yet, the overshoot stop offers a clear tactile indicator.

* 1 Newton (N) ~ 0.1 kilogramme force (kgf)

Short shaft enhances precision of hand movement and guarantees superior driveability. A great help in fine applications such as pipetting in microtubes or microplates.

Micropipette saver packs

Pipette packs offer an extended choice of volume combinations, covering all individual requirements in any research or routine application. Available at attractive saver prices, they match with today's budget constraints.

The Acura® manual 825 / 835 Triopack

- Three adjustable micropipettes
- Large choice of volume combinations up to 10 mL
- Nine different packs

Ordering information - Triopack

Manual macropipettes

The Acura® manual 835

Instruments combining high-tech materials with user-friendly ergonomics. Optimal for in- and outdoor environmental analysis, clinical chemistry, and cell culture applications, they offer superior performance and make pipetting safer than ever. Three-year warranty.

- Smart and reliable volume adjustment
- Single-handed volume setting
- Interchangeable nozzle protection filter
- Justip™ adjustable tip ejector
- Swift-set user calibration system
- Shock, UV light and autoclaving resistance
- Pasteur pipette fitting 2 and 5 mL models

835

macro

Display always visible

Located on the front of the instrument, the display window allows set volume to be visible at all times during pipetting. A comforting reassurance for the user.

Smart and reliable volume adjustment

State-of-the-art micrometric volume setting is performed smoothly and precisely by turning push button. Finely machined click-stops and free rotating cap prevent any unwanted volume alteration.

Adjustable tip ejection system

Ergonomically positioned, the large surface, soft-padded ejector provides for low-pressure activation. In addition, the shaft height adjustment system called Justip™ allows optimal distance setting between ejector and tip.

Pasteur pipette adapter

Adapter nozzles allow fitting of Pasteur pipette on Acura® manual 2 and 5 mL models in addition to polypropylene tips. The adapters have two O-rings guaranteeing proper holding and tightness of standard 2 mL Pasteur pipettes (Ø 7 mm).

Nozzle protection filter

Protection against liquid overflow and contamination.

(See page 27)

Multichannel micropipettes

The Acura® manual 855

Built with the users in mind, these pipettes combine high-tech materials with exceptional, user-friendly ergonomics. They extend pipetting possibilities in 96-well microplates and guarantee outstanding performance and results. Three-year warranty.

- 8- and 12-channel models up to 350 µL
- Lightweight and perfect hand fitting
- Precision display visible at all time
- Justip™ adjustable tip ejector fitting most tips
- Swift-set user calibration system
- 360° rotation of volumetric module

855 multi

12x 40 - 350 µL	203 gr

Optimal working position

Revolving over 360°, the volumetric module (lower assembly) helps assuring the appropriate hand position.

Most comfortable pipetting

Ergonomic shape, lightweight and ultra-soft plunger travel are key elements of the Acura® manual pipettes.

Adjustable tip ejector

Position of tip ejector can be adjusted in no time within a 4 mm span to perfectly match with tips used. Bowed shape of ejector head guarantees effortless, easy sequential tip removal.

Multichannel reservoirs

Well adapted for multichannel pipettes, the reagent reservoirs offer various shapes and volumes.

Manual fixed volume pipettes

The Acura® manual 815 / 835F

Fixed volume micro and macropipettes show the most stable performance. They provide consistent results for any analytical or routine diagnostic tests by eliminating the risk of erroneous volume setting. Three-year warranty.

- Slim ergonomic design and light weight
- Soft plunger activation
- Justip™ adjustable tip ejector fitting most tips
- User calibration with integrated key
- Colour coded smartie cap
- Selection includes macropipette volumes

See pipette tips page [20](#)

1:10 dilution pipette

The Acura® dilute 810

Air displacement pipette with two pre-calibrated steps allows subsequent pipetting of 1 and 0.1 mL of the same liquid. Metal nozzle fits long straw tips to aspirate from narrow or deep reservoirs (i.e. Stomacher® bags). Ideal alternative to the graduated glass pipettes when performing serial 1:10 dilutions in bacteriology. Three-year warranty.

- Two pre-calibrated fixed volumes – no setting required
- Smooth activation, excellent ergonomics
- Interchangeable PE nozzle protection filter
- Justip™ system for height adjustment of tip ejector
- Independent calibration for each volume
- Easy maintenance, cleaning and disinfection
- Fully autoclavable at 121°C / 250°F

810

1 + 0.1 mL

Simple operation

- 1 Depress plunger button in full, then release slowly to aspirate 1.1 mL
- 2 Depress plunger button to first stop, thus dispensing 1 mL in Petri dish
- 3 Depress plunger button to second stop, thus dispensing residual 0.1 mL in next Petri dish

No setting required

Two fixed volumes within one plunger travel.

Justip™ ejector

Turn left or right to adjust ejector to straw tip position on the nozzle.

Innovative dual calibration

Both volumes of 1 mL and 0.1 mL can be calibrated independently from each other. Calibration switch protected by seal sticker.

Straw tips

First class polypropylene. Size 190 mm. Specially designed for narrow vials and Stomacher® bags. Large diameter (4 mm) prevents blocking by particles in suspension.

Pipette stand 340 for 3 pipettes	1 / pk	320.340
Shelf pipette holder 332 for 2 pipettes	1 / pk	320.332
Shelf pipette holder 332 for 2 pipettes, multipack	4 / pk	320.332.4

Pipette stands

The two universal micropipette stands fit all brands, ensuring their proper storage at any time. Anti-slip pads guarantee bench stability. Easy to clean.

336

Twister™ universal 336

- 6 positions
- 360° soft rotation
- Instruments easy to pick-up
- Concept fits pipettes of all brands
- Interchangeable discs
- 7 translucent colours

Universal storage solution

No more micropipettes laying on the bench thanks to universal stands. They accommodate Socorex and other brands micropipettes. Simple disassembling and cleaning.

Ordering information

Colour	Packaging	Cat. No.
Twister™ universal 336		
Rubin red	1/ pk	320.336R
Topaz orange	1/ pk	320.336O
Citrine yellow	1/ pk	320.336Y
Emerald green	1/ pk	320.336G

337

In-line™ universal 337

- 7 positions
- Holds single channel pipettes of all brands
- Space-saving pipette stand
- Sturdy polyamide material
- 5 attractive pastel colours

In-line™ universality

One fits all; the stand holds new and old generations of Socorex and other brands micropipettes.

Ordering information

Colour	Packaging	Cat. No.
In-line™ universal 337		
Light grey	1/ pk	320.337G
Pastel rose	1/ pk	320.337R
Ice blue	1/ pk	320.337B
Mint green	1/ pk	320.337M
Vanilla yellow	1/ pk	320.337Y

Proper micropipette storage prevents damages and extends their life span. Socorex offers a choice of stands adapted to any laboratory configuration.

332

Shelf pipette holder 332

- 2 positions
- Fitting micro, macro and multichannel pipettes

Holder for two instruments

The attractive design accommodates Acura® instruments, including microdispenser pipettes Acura® 865. A self-adhesive strip supplied ensures lasting attachment on any clean surface. Made of polycarbonate material.

Ordering information

Premium pipette tips

The Qualitix® pipette tips from 10 µL to 10 mL

The Qualitix® pipette tip programme is all about quality, flexibility and compatibility. An extended line for accurate liquid delivery, fitting not only Socorex but all major micropipette brands. Packaging selection (bags, racks and *tipfill*™ rack filling system), together with a choice of tip styles with and without protection filter, offer appreciated versatility. Qualitix® and Socorex micropipettes are the most perfect match for optimized test results.

- Wide selection, superior quality, autoclavable
- Bags, racks and *tipfill*™ rack filling system
- Lot by lot consistency
- Certified free of nuclease, endotoxin and ATP
- Reduced packaging size, less bench space requirement
- Broad compatibility with major micropipette brands

Free samples on request

Beveled and fine pointed

Beveled tip end **a** greatly reduces sticking of liquid drops. Fine pointed tips **b** have a thin and soft end, enabling small liquid volume deposit, thus enhancing reproducibility in repeat pipetting. A long and soft end is appropriate for gel loading **c**.

Aerosol protection - No contamination

Filter tips include a 10 µm pore hydrophobic HDPE filter to retain any contaminant, efficiently protecting both pipette and sample. Certified high tip purity and gamma irradiation.

Low retention - Maximal recovery

Low binding tips **a** are made of silicone-free resin, greatly reducing surface adhesion and providing maximal liquid recovery. Available in 10, 200 and 1000 µL capacities, in sterile and non-sterile racks. Also protease-free certified, they are best suited for proteomic research and accurate handling of viscous liquids.

Qualitix® *bioproof*™ level

The Qualitix® line is free of detectable DNase, RNase, Pyrogen (Endotoxins) and ATP. Filter tips are additionally certified free of detectable human DNA and protease.

View certificate

Rack filling system

The *tipfill™* packs are intended for easy rack loading. A practical and economical solution for any laboratory, limiting work interruption to a minimum. Each 96-tip insert is instantly transferred into an empty rack without risk of contamination. The transfer cover keeps tips clean and prevents wobbling during refilling.

See video

Packaging options

Tips available in bags, hinged lid racks and *tipfill™* rack filling system.

Space reduction

The smart re-closable *tipfill™* box uses far less space than corresponding amount of conventional racks and produces less plastic waste. This has a direct impact on storage requirement, shipping costs and environment.

Environmental aspects

Packaging is optimized to ensure good protection while using minimal cardboard material.

Application guide

Tip style	Features	Benefits
Regular tips	Superior quality, optimal and universal pipette fitting.	Common use in daily pipetting with Socorex and other pipette brands.
Filter tips	Same as above, includes 10 µm pore size hydrophobic HDPE protection filter.	Efficient protection for both pipette and sample against aerosol contamination.
Low binding tips	Special material provides for very low surface retention.	Accurate handling of thick, viscous liquids and protein/peptide samples.
Gel loading tips	Long, thin and soft tip end, universal fitting.	Precise sample distribution in confined area without damaging gel structure.
Extended tips	Long tip length, universal fitting.	Easy access into narrow, deep tubes while limiting contact with tube wall.
Saver tips	Reliable tips, universal pipette fitting.	Economical bulk packaging, best suited for large tip projects.

Reagent reservoirs

V-shape reservoirs, 75 mL

Re-usable and autoclavable polypropylene. Embossed graduations guarantee long lasting legibility. Round corners enable convenient reagent pouring. Bottom shape ensures bench stability. Bring maximal flexibility for routine work with single and multichannel pipettes.

V-shape reservoirs, with lid, 125 mL

Re-usable and autoclavable polypropylene. Hinged lid closure. Microplate format guarantees excellent stability. Stackable for space saving storage. V-shape bottom enables aspiration until last reagent drops. Suited for single and multichannel pipetting.

Free samples on request

Multichannel reservoirs, non-sterile, 48 mL

8- and 12-channel polystyrene reservoirs. Each channel with round bottom. Total capacity 48 mL. Good bench stability. Microplate format enables use with automated, robotic pipetting devices and multichannel pipettes.

Multichannel reservoirs, sterilized, 48 mL

Single wrapped 8- and 12-channel polystyrene reservoirs to be used in clean environment. Sterilized by X-ray radiation. Each channel with round bottom. Total capacity 48 mL. Good bench stability. Lot number facilitates traceability.

Pasteurs, straws and filters

Glass Pasteur pipette

Standard Pasteur models fitting 2 and 5 mL Acura® *manual / electro* macropipettes with their respective adapters. Useful alternative to macrotips, for instance when handling PP affecting reagents. Model and size selection fit most lab requirements.

Pasteur pipette adapters

Dedicated PVDF adapters with two internal O-rings tightly fitting glass Pasteur pipette (ext Ø 6.5 – 7.2 mm), without excluding the use of regular PP tips.

Straw tips

Fitting the Acura® *dilute* 810 pipette. The long and thin straw tips allow pick-up of particle containing liquids in Stomacher® bags and deep, narrow reservoirs. Supplied sterilized in resealable bag.

Nozzle filters for pipettes

Protection against liquid overflow or aerosol contamination. Filters are interchangeable, non-sterile, non autoclavable.

Sterilization pouches

The Qualitix® sterilization pouches

Fitting any small to mid-size laboratory, medical, dental or veterinary device, the Qualitix® single use pouches provide easy and effective wrapping of items requiring sterilization. Made with robust medical grade paper, the pouches tightly close with self-sealing strip to maintain sterility. Content remains always visible through PET / CPP transparent laminated film.

- Robust durable material
- Quick content identification
- Large self-sealing strip, easy to close
- Chevron top seal for easy opening
- Suitable for steam and EO gas sterilization
- Two sterilization indicators
- Five different sizes
- Conformity to ISO 17665, ISO 11135, MDR 2017/745

Free samples on request

Sterilization indicators

Two chemical indicators included to confirm proper sterilization process. Blue indicator turns dark grey after autoclaving, red indicator turns to yellow after ethylene oxide (EO) gas sterilization.

Self-sealing - quick opening

Simply peel off protection strip, fold and press with fingers. Pouch remains tightly sealed to maintain product sterility.
